INTRODUCTION

ISF World Schools Championships (WSC) are events characterised by a balanced programme between sport and educational content: the balance between sport and education is to create awareness about the role of sport in putting forward topics such as fair play, healthy lifestyle, respect, inclusion. WSCs are open to the participation of school and selected teams. WSCs are team competitions, meaning that individual events do not award any medals, but only contribute to the final team result. The number of teams per delegation per category differs from sport to sport.

One ISF member may enter the WSC with more than one school team and one **selected team per category**.

Age categories for WSC are outlined in the respective sport-specific rules.

The educational programme and the sport format of the event shall always be adapted to the age of participants: in general, in events for lower age categories, the educational content will have a more prominent role.
