EDUCATIONAL PROGRAM

ISF FOOTBALL WORLD CUP
CHINA 2024

WORKSHOPS

During the first part of the competition, ISF organized educational workshops that left a lasting impact. The workshops covered two crucial topics: Safeguarding Children in Sport and Doping Prevention in Sport.

Participants engaged in insightful discussions, learning valuable lessons to ensure the safety and well-being of all athletes. The Safeguarding Children in Sport workshop emphasized the importance of creating a safe and respectful environment within sports, promoting fairness and equality for everyone involved. On the other hand, the Antidoping workshop provided essential knowledge to maintain clean and drug-free competitions, upholding the integrity of the games.

Through these enriching educational activities, ISF reaffirmed its commitment to fostering a positive and ethical sporting culture, empowering young athletes to become responsible ambassadors of fair play and sportsmanship.

This workshop was actively attended by 774 students from 33 countries and regions to cultivate essential sports values without leaving out a single country.

EDUCATIONAL PROGRAM

ISF FOOTBALL WORLD CUP
CHINA 2024

WORKSHOPS - ISFA x FIFA Football for schools

Capacity Building Workshop at the ISF Football World Cup 2024 in Dalian, China

This education program consisted of two parts: a classroom/lecture-based session and a practical-based session for approximately 80 physical education teachers from Dalian.

Schools remain the most effective and efficient avenue in which to engage young people in sport. The F4S (Fifa for School) Programme aims to ensure that football is accessible to all learners, without discrimination.

Through the training of school PE teachers, insights into life skills through football and football education were provided, offering means to further engage learners in education through football. Additionally, even after the completion of this training, an online learning platform and mobile application providing easy-to-use content for training sessions were made available.

The F4S Programme intended to complement the efforts of educators and advance education outcomes, thus assisting student individual life. Football is capable of playing a vital role in the education system and acting as a "school of life".
